## 2) Data Entry Page

The image shows a web form titled "Car Price Predictor" with the subtitle "Predictive analysis". The form is set against a teal header and a black background. It contains several input fields for car details: Purchase Year (text box with "2000"), Current Showroom Price (text box with "0" and "(In lakhs)" label), Kilometers driven (text box with "50000"), Previously existing owners for the car (text box with "0 or 1 or 2"), Fuel Type (dropdown menu with "Petrol" selected), Seller Type (dropdown menu with "Dealer" selected), and Transmission type (dropdown menu with "Manual Car" selected). A green "Calculate" button is at the bottom of the form area. A red instruction message is at the top of the form area. A blue bar is at the very bottom of the page.

**Car Price Predictor**  
Predictive analysis

**\*Please fill all the fields in this form\***

Purchase Year :

Current Showroom Price :  (In lakhs)

Kilometers driven :

Previously existing owners for the car :
